

We can do no great things,
only small things with...

Great Love

The Kinh 5 Foundation was established on the notion of community enrichment and development through solidarity. We aim to unite the people of the Kinh 5 village in Vietnam that migrated all around the world after the 1975 fall of Saigon. What started out as a small group of individuals seeking to connect and get back to their home town roots has seen a significant growth over the years. We now have divisions all along the U.S., Australia, France, England, Vietnam and hope to keep expanding throughout the years. Only when we are UNITED can we help ourselves and each other in building a strong and healthy community.

Let's change one Life

Sharing and Supporting Each Other

"The greatest good you can do for another is not just share your riches, but reveal to them their own."

Disraeli

It's not how much we **give**
but how much
love we put into giving

Formally formed on February 25, 2011 (informally formed 15 years prior), the Kinh 5 Foundation was created to unite the Kinh 5 refugees with the villagers who still remained in the region. Bearing witness to extreme poverty, hunger, disease, and lack of education and healthcare, the Kinh 5 refugees recognize the importance of humanity. All together with one vision and one mission of "sharing and supporting each other," they are determined to provide every Kinh 5 villager with the opportunity to live a healthy and successful life. But no matter how successful they became, they **NEVER** stopped thinking about the people that were left behind

You Can Change their Lives

Our members are dedicated to the cause and make contributions whenever they can, volunteer their time, and engage in outreach programs to see how we can help each other in attaining our goals. But we are not fully there yet! We are far from reaching our goal and need all the help we can get. For donations and volunteer opportunities, please visit our website at WWW.KINH5FOUNDATION.ORG

KINH5 CORE VALUES

Education

Building schools is one of our core goals. We believe that education fosters personal growth and development and creates productive and responsible citizens that will in turn create a better and brighter tomorrow.

Healthcare Services

Healthcare is a major concern for us, especially in this impoverished region. Building health centers and hospitals that provide medicine, vaccinations, and control diseases ensures the well being of our community.

Eliminating Hunger

One of the most basic needs for survival, our foundation aims to fight hunger by providing food and proper nutrition to this extremely malnourished area.

Ending Poverty

Many families, including many children, subsist in living conditions that are below standard. Providing housing and food is one of the ways we aim to solve the homelessness problem.

Aiding Physical Disabilities

Lack of proper healthcare, and wounded Vietnam War veterans left to care for themselves has produced an area wrought with physical disabilities. We aim to solve this problem by providing medicine and care to those in dire need who cannot help themselves.

We are a non-profit 501 (c) (3) grassroots organization dedicated to assisting the underprivileged and impoverished people of the Kinh 5 region in Vietnam. Our services are aimed at, but not limited to, orphans, the elderly, the poor, and individuals with incurable diseases.

OUR ULTIMATE OBJECTIVE IS TO PROMOTE SELF AUTONOMY

Our foundation has come up with five distinct core values that we believe are the building blocks to reconstructing our community. We hope to plant the seed that fosters independence so that every person can be equipped with the knowledge and self-confidence to help themselves and in turn create a better world for everyone and for future generations to come.
